

Por-Tweekly?

Published Once too Often by the Inmates Of The Port Washington H. S.

Published by the inmates of the Port Washington High School in the hope that someone will be insulted and murder one of the Editors responsible for this mess.

The Por-Tweekly comes out

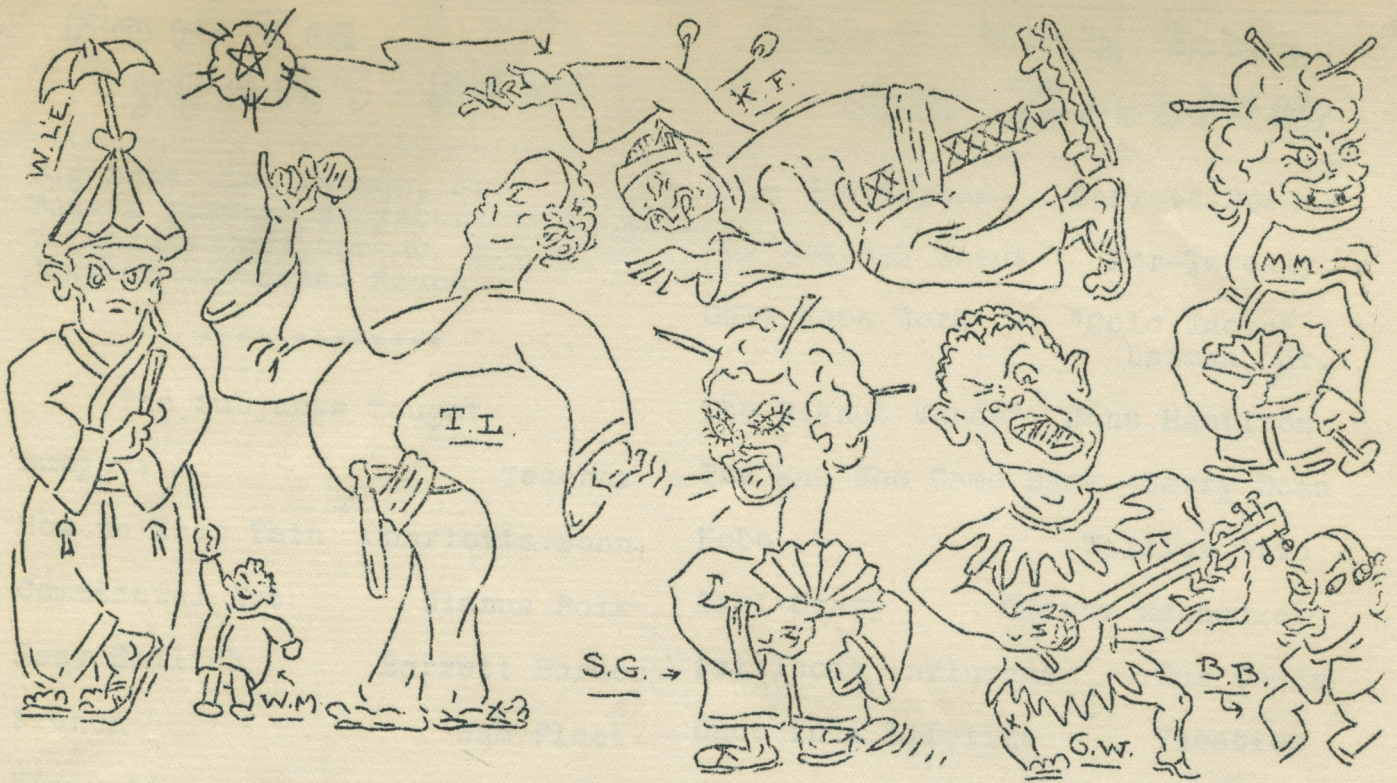

flatfooted for the segregation of the sexes. Whv, do you realize that in the whole state of Ohio guinea pigs multiply more rapidly than flies? We are aware that Einstien could multiply more rapidly than they but that is merely relative. Anyhow this means this much, if all of the hot air generated in one day in the restaurant were condensed it would relieve the lack of water that is impending in New York City.

Another thing that the Por-Tweekly is absolutely against. That is the bad habit that has been acquired in presenting films that will not permit the tired student body to sleep at assembly programs.

This paper is published in honor of APRIL

FOOLS - We Fooled ourselves. How about

YOU?

Steve Aylward see the "Mikado" cast.

Mr. Merrill - Sedentary work tends to lessen the endurance.

Eve - "What's the matter with this Car. It squeaks terribly?"

John MacGillvray - In other words the more one sits the less one can stand?

Bunky - "Can't be helped. The axles are made of pig iron."

Mr. Merrill - Exactly and if one lies a great deal one's standing is lost completely.

Bob Read says that science's greatest contribution to the world is blondes.

Florence - Why do you call your alarm clock Macbeth?

Joe - Macbeth doth murder sleep.
